DEMOCRATIC CHAIRMAN ENDORSES KAY & CRONISTER

St. Petersburg, Fla., April 10, 1924 Taylor Apts. 326 S. Third Ave. To the Bedford Gazette and all members of the County Committee and Loyal Democrats of Bedford County, Pa.: Gentlemen:

An upheaval has occurred in the Republican Party for which their leaders are responsible and they clearly see defeat facing them in November. They are fully in charge of the country's affairs in all branches of government. Never before in the history of our nation has such scandalous fraud been perpetrated in high places. Their party is morally bankrupt and divided.

All honest forward-looking men and women are now calling and urging the Democratic Party to make no mistake in leadership.

We, therefore, urge all members of the Democratic County Committee to be at the polls all day and vote and work for Robert H. Kay of Altoona, Pa., for District National Delegates. Both men can be depended upon to select the best man for President.

I have seen and talked to hundreds of Democrats from the West and South, and the majority are for

McAdoo. They think he is the man to bring the country out of the corruption that has settled down like a mighty plague over the entire nation. Corruption must be DEFEATED or our civilization will fail and go down in this immoral swamp and political stagnation, never to rise again.

Democrats of Bedford County: I feel it is my duty as your Chairman to call your attention to the corruption that exists; and that you select delegates that you know will truly and faithfully represent you in the National Democratic Convention which meets in New York City June 24, 1924. When you do this you will have done what you did for me in 1912 when the solid Pennsylvania Delegation cast its vote for that upright, Christian and farseeing statesman, who brought us Democratic Victory, and gave peace to the world, and saved Civilization, that fiendish scoundrels are now attempting to tear down by corruption.

Feeling confident in the results, and I hope to be with you at an early date, much improved in health and strength.

Respectfully yours, A. Enfield, Chairman Democratic Party of Bedford Co. Pa.

STATE YOUNG PEOPLE'S COUNCIL GOING TO ALTOONA APRIL 24, 25, 26

Those young people who will be delegates from Bedford County have in store for them a program of never to be forgotten good things. With such splendid young people's specialists as Charles E. Garren, State Young People's Superintendent from Massachusetts, Miss Adella R. Sterrett of the Boston University, Henry R. Bowen, State Young People's Superintendent of New Jersey, R. A. Waite, Associate Director of Danforth Foundation, and Pennsylvania's two leaders in Young People's work, E. H. Bonsall, Jr., and Miss Esther I. Williams, it certainly should be up to the Young People's Division of Bedford Sunday School Association to send their full allotment of delegates to the Annual Young People's Council to be held in the First Methodist Church of Altoona on April 24, 25, 26.

It has well been said that "what you put into a boy or girl stays with them until the end", and the Young People's work of the State Sabbath School Association's program is large, than that of any other department.

At these Councils are gathered several hundred young people, the coming leaders in Church and Sunday School activities and the spirit and inspiration of such a gathering of choice young people gathered with real young people's specialists, certainly is worthy of Bedford County sending her full quota of delegates that we may be benefited by the inspiration and good these bring back home.

Train schedules to Altoona are fine and with a registration fee of only Three Dollars and that Three Dollars covers all lodging and meals except one meal during the Council.

Our County President is also asked to go as a delegate and why not have him head up and pilot to Altoona the finest bunch of young people that has ever gone from this County to one of these Councils.

Reduced railroad fare of a fare and a half has been asked for, so in purchasing tickets ask for a certificate and in all probability you will be able to make a nice saving there.

VOTE YOUR TICKET AS MARKED

On another page you will find the democratic primary ballot just as you will find it on primary day next Tuesday. Be sure to mark your ballot just as you see the cross marks in this ballot. These candidates are all temperance people and are honest and square and will do all they can for the best interests of the party.

Robert H. Kay of Everett and W. M. Cronister, of Altoona, are candidates for National Delegates from this district. Kay's name comes second and Cronister's comes fourth under "Delegate to National Convention" 21st District, (Vote for two) these two.

The Democratic Party is going to be successful in the campaign of 1924 depending on the party's ability to present a platform and candidates measuring up in every respect to the liberal thought and progressive needs of the great mass of voters of this Country. The supreme issue, involving all others, is the encroachment of the powerful few upon the rights of the many and the Democratic party must rise not only to its opportunity but to its responsibility. It rests on it delegates to the National Convention to select a candidate for president who will be best fitted to lead the Democratic party to victory and who when elected will place the interests of the Republic first and relegate all other considerations to the rear. We think the man who can do that best of all is William G. McAdoo. Go to the polls and vote your sentiments. If you want Bedford County represented as "Wet" then vote for Greevy and O'Neill. If not vote for Kay and Cronister. Mothers should look to the best interests of their family. Do your thinking now.

DON'T VOTE FOR ANY WET CANDIDATES

Thomas H. Greevy and Charles O'Neill, both of Altoona, were advertised in the Philadelphia Sunday Record as wet candidates for National Delegates to Democratic National Convention. Every mother and respected father and every decent voter in Bedford and Blair Counties ought to go to the polls next Tuesday and vote against both of these candidates. Chairman Enfield addresses you this week in the Gazette as to your moral duty as a citizen and a voter and you ought to do it. Go to the polls next Tuesday and follow the marking of your ballot as the Gazette has it and you won't vote wrong. Make crosses on your ballot where they are indicated in the Gazette. This votes for John A. McSparran and his Associates. And you all know John A. McSparran. Turn out for him. Do your duty by your friend McSparran.

The superintendent of the Humane Work, Mrs. Wm. White presented an interesting program on her special department work which cannot fail to inspire greater effort for the protection of the unprotected birds, animals and oppressed children.

The importance of the Primary Election was stressed and the general list of all candidates read and their position on moral issues at stake discussed.

It is the policy of the Woman's Christian Temperance Union to inform their constituency but not dictate to the Voter.

THE NEW SCHOOL BUILDING PROGRAM

The duty of every City, Town, Borough, and Township: To provide adequate school facilities for the children.

The problem: To do so on the income received.

Can the School Board have a building built with the proceeds of the bond issue? No.

Could not the local Board of Education borrow the additional money needed and pay it back from future income?

Not legally. The bond issue covers the amount the board can obligate the Borough for.

Does the present building cover the requirements of the Borough for school purposes.

No. All departments are overcrowded.

If all non-resident children were excluded from our schools, would there be a sufficient amount of room for the children of Bedford?

No. There are only forty-six (46) non-resident scholars in the grades. If these were excluded, it would reduce the number in the grades an average of only five per room.

How about the High School?

By excluding the non-resident students, there would be a sufficient amount of room if the rooms now occupied by the High School were not needed for the grades.

Why not build a smaller building than the one proposed?

Every room in the proposed building will be used immediately on completion.

What provision is made for the future?

The proposed building is designed on what is known as the unit system. Additions can be made at any future time without altering or defacing the units already built.

What is the new building to cost?

The lowest bids received by the School Board total about \$73,000.

Does that include the cost of the lot?

No. The School Board has already paid for the lot.

What amount is needed by the School Board to go ahead with the new school?

The bond issue is \$50,000.00. There is a surplus in the treasury of about \$5,000.00. This leaves a balance of about \$18,000.00.

How can this balance be raised?

As the School Board can not borrow more, the only way this amount can be raised is by public subscription.

Who are the members of the School Board?

Dr. H. B. Strock, L. D. Blackwelder, J. Frank Russell, C. E. Koontz, S. W. Rouzer, C. E. Shappel, secretary.

They were elected by the voters of Bedford Borough to conduct the schools of Bedford. Every citizen of Bedford should support them to the fullest extent. They are working without compensation for the benefit of Bedford's school and children. They are men of ability and integrity. They have studied the needs of the school and feel that a new school is a necessity for Bedford. We are giving their time they have subscribed \$2000.00 toward the building fund. Bedford is exceedingly fortunate to have men of their ability, who are willing to devote their time and money to this work.

Her mother, now Mrs. Emma J. Devore, lives at the Webster home.

Besides her husband and mother, deceased is survived by four daughters, three sons and two grandchildren.

Herman Suttit

Herman Suttit, of West St. Clair township, died on Monday evening, April 14, at his late residence near Pleasantville. Death resulted from cancer of the face which developed only in recent years from a bruise which he sustained when he was a young man and from which he believed he had completely recovered soon after its occurrence. Mr. Suttit was never married and is survived by one brother, Samuel W. of West St. Clair township, and by three sisters: Mrs. Cornelia Davis, of New Paris; Mrs. Annie Walter, of Cessna, and Mrs. Mary Callahan, of Alum Bank, with whom he made his home on the mansion farm. Allen, of Pittsburgh, known as the "father of fifty-seven children," through adoption, was indicted by the Allegheny county grand jury upon a statutory charge in connection with his alleged relations with Myrtle Enlow, said to be one of his adopted daughters. Gardner, of Allegheny county, announced that he would appear before the state pardon board at Harrisburg to oppose the granting of pardons to Israel Blankenstein, Joseph Martinovich and Steve Zanoff, who were convicted on charges of sedition and sentenced to serve from two to five years in the penitentiary. Counsel for the men in their petitions for pardons cited the "wholesale release of political prisoners" throughout the country as a precedent. Their terms will expire within a month, and District Attorney Gardner said he would oppose their petitions for pardons because by releasing them before they serve the full sentences they would be exonerated and could become citizens of the United States.

After the death of his wife, Kelbaugh, then 80 years old, felt life burdensome and made preparations for his death and funeral. However, his health improved, and in recent years he had an ambition to live to be 100.

Altoona.—Favoring the annexation to Altoona of Juniata, East End, East Altoona, Collinsville, Locust Hills, Eldorado, Roselawn, Llyswen, Lakemont Terrace, South Lakemont, South Altoona and other suburbs, Mayor Giles says it would increase the population of the city from 65,000 to 80,000.

Franklin.—A permanent roundhouse for the Allegheny division of the Pennsylvania railroad is likely to be built at the Venango yards here, along with other extensive improvements, it is reported. The railroad officials here announced that the roundhouse to be erected at the north side yards in Oil City, to supplant the one destroyed by fire, will be only a temporary one, and that the permanent one will be erected later in Franklin.

Sharon.—Ground was broken here for a new Holy Trinity Evangelical church in South Oakland avenue. It will cost about \$75,000, and is to be completed during the coming summer.

Washington.—A big gasser, blowing at the rate of over 1,000,000 cubic feet a day, has been struck on the E. B. Morris farm in Center township, Greene county. The pay streak was reached in the fifty-foot sand and the tools were blown out of the casing by the force of the gas.

Wilkes-Barre.—Thirty-two deaths in Luzerne county since the first of the year have been attributed to poison rum, according to Coroner Thomas. The total is only one less than the whole number from the same cause for all of last year. In addition approximately sixteen persons have suffered mental derangement from indulgence in moonshine so far this year. Several of these have been sent to the hospital for insane at Retreat, six from Plymouth alone since January 1.

Monongahela.—John Zubak, 3 years old, son of Mr. and Mrs. Charles Zubak, of Hazel Kirk, was instantly killed when struck by an automobile in front of his home owned and driven by John Williams, of Ellsworth.

Pittsburgh.—Crooks can no longer become "coppers" to carry out their work "lawfully," at least not in Pittsburgh. From now on, policemen here will be finger printed and photographed. Their portraits will be compared with pictures in the rogues' gallery and any resemblance to criminals will disqualify applicants for the brass button jobs. The innovation resulted from information that several criminals were working successfully behind the screen of the blue uniform and a badge.

Pittsburgh.—The contention of Oscar Donnelly, proprietor of a well-known club, that city council could not force him to answer questions in the probe of conditions in the police department, was upheld by Judge Carpenter in an opinion handed down. Donnelly was summoned as a witness and asked to testify concerning the operation of his club. He refused to answer and council took the matter to court. Judge Carpenter ruled that he did not have to answer the questions. In a ruling several weeks ago the court sustained Mayor Magee, who also refused to testify.

York.—Salesmen in the campaign for York's new hotel came within \$40,000 of the \$1,000,000 goal.

North Scranton.—James Moffitt, aged 52, committed suicide by shooting.

Silver Brook.—Mrs. Nelson Bitler, aged 68 years, stricken while eating dinner at a celebration of her golden wedding, died.

DuPont.—Run down by a Lehigh Valley engine, John Tokish, a miner was killed.

CConnellsville.—A gas explosion caused by using green coal in a furnace at the Silgo mill of the Lockhart Iron and Steel company started a fire which resulted in damage to the plant estimated at \$125,000.

Delmont.—Edward Sendek was ordained as a priest at Chicago.

Domestic science experts say, "Cream of Tartar baking powder is the best"

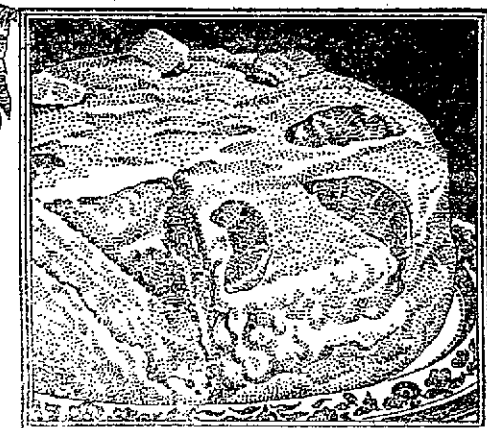

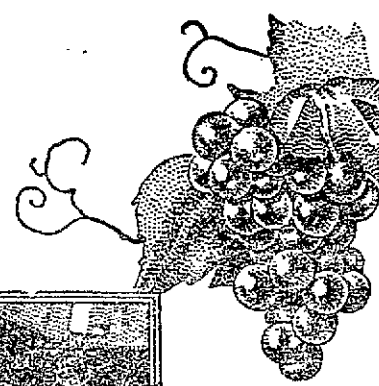

Recently a representative group of Domestic Science experts in all parts of the country was asked "which type of baking powder do you use and prefer?" 83% unhesitatingly replied "Cream of Tartar." An overwhelming sentiment in favor of cream of tartar for perfect baking.

Cream of tartar was one of the first leavening agents to be used in baking. For years the best cooks insisted on cream of tartar for perfect cakes, biscuits and other baked foods. Then came Royal Baking Powder, in which are perfectly blended soda and pure cream of tartar derived from grapes grown in the famous vineyards of Southern Europe. For 50 years Royal Baking Powder has been used by the housewives of America for successful baking.

WHAT MY NEIGHBOR SAYS

Is of Interest to Bedford Folks.

When one has had the misfortune to suffer from backache, headaches, dizziness, urinary disorders and other kidney ills—and has found relief from all this sickness and suffering, that person's advice is of untold value to friends and neighbors. The following case is only one of many thousands, but it is that of a Bedford resident. Who could ask for a better example?

Miss Mary Wise, 147 Spring St., says: "I had a steady, heavy pain in my back and when I stooped, I was taken with sharp, stabbing pains. I became dizzy and dark specks appeared before me. Mornings when I got out of bed, my muscles ached and I had a tired-out feeling. My kidneys were weak and didn't act regularly. I got a box of Doan's Pills at Heckerman's Drug Store. Before I had used all of it, I was cured and have had no occasion to use Doan's since."

Miss Wise is only one of many Bedford people who have gratefully endorsed Doan's Pills. If your back aches—if your kidneys bother you—ask distinctly for DOAN'S PILLS, the same that Miss Wise had—the remedy backed by home testimony. 60 cents at all dealers. DEPARTMENT OF AGRICULTURE REPORT

Harrisburg, Pa., April 14.—The condition of winter grains and pastures in Pennsylvania is the lowest this spring for any April 1 period during the last six years, according to the monthly crop report issued today by Paul L. Koenig, agricultural statistician for Pennsylvania. He said the winter weather, until the last week of February, was not favorable to the best interests of grain growers in this State, but that March conditions were more favorable because of the protective snow covering which served to check any further damage from alternate freezing and thawing.

On April 1 the wheat crop was estimated to be 83 per cent normal, as compared with 84 per cent in April, 1923, and 88 per cent, the average condition for the past ten years. It was announced the principal factors responsible for the low condition were dry weather last fall, the consequent late seeding, and the lack of snow covering when the crop most needed protection. The condition of wheat in the entire U. S. on the same date was 83 per cent normal, compared with 75.2 last year and 82.5 per cent, the ten-year average for April 1.

The condition of rye on April 1 was 86 per cent normal as compared with 89 per cent last April, and 90 per cent, the ten-year average for conditions on the same date. While it was considered early to gauge the actual condition of pastures, and in many cases snow prevented an accurate report, the condition was reported as being 82 per cent normal.

It is estimated there are 129,000 breeding sows on Pennsylvania farms, as against 137,000 on April 1 last year, a reduction of 6 per cent. In the United States, there are 11,751,000 breeding sows, or 89 per cent of the number in 1923.

The farm labor supply was reported as 79 per cent normal in Pennsylvania on April 1, and the demand 89 per cent normal. The supply therefore being 89 per cent of the farmers' needs. Average wages paid by farmers were reported to be \$39.50 per month with board, \$59.00 without board.

FIRST WORLD'S SUNDAY SCHOOL PARTY LEFT NEW YORK APRIL 12TH

Saturday afternoon the first World's Sunday School delegates left New York bound eventually for Glasgow, Scotland and the World's Sunday School Convention, June 18th to 26th.

This first party of World's Sunday School Pilgrims, one of the smallest parties that leaves for Scotland however, takes one of the longest tours listed by and under the direction of Thomas Cook and Sons.

The party is composed of 36 members, 2 from Canada and others from various states as far as Spokane, Washington. As usual, in Sunday School Work, Pennsylvania leads and is represented on this particular party by nine delegates, and the entire party is under the leadership of H. C. Heckerman of Bedford, Penn't., a Vice President of the Pennsylvania State Sabbath School Association and their Publicity Chairman.

This party will hold conventions in and visit Sunday School work as it is carried on by the World's Association in Algiers, Tunis, Athens, Damascus, Jerusalem, then to Egypt, Italy, Switzerland, France, England and Scotland. Many conventions and receptions have already been arranged for this party before reaching Scotland.

The World's Association in New York entertained this first party of World's Sunday School pilgrims at an acquaintance reception at the Prince George Hotel on the evening before sailing, when addresses were made by Drs. Pearce and Price of the World's Association, Mr. Merimer of Thomas Cook & Son, and H. C. Heckerman of the party.

The entire party was taken to the Bragg's Pier on Saturday afternoon in a large sight seeing car where goodbyes were said and "Blest Be the Tie That Binds" sung as the boat left the dock.

Many of the tours will now follow in rapid succession, most all of them of shorter duration and the ones leaving New York and Montreal on June 7th will be on vessels chartered exclusively for use of World's Sunday School delegates.

About 100 delegates have already registered from Pennsylvania and many others are expected to take advantage of tours now forming.

TYRONE WINS THE FIRST STATE SUNDAY SCHOOL CONFERENCE

Tyrone certainly is lucky in having been able to land the first State-wide Sunday School Leaders' Conference, for men and women from all parts of the State. The State's choice leaders in educational problems in the work of the Sunday School will gather in Tyrone for three days—May 1st, 2nd and 3rd. At this Leaders' Conference and under the leadership of Dr. M. Hadwin Fischer, Director of Religious Education of the Pennsylvania State Sabbath School Association will be such outstanding leaders in Christian Education as Dr. J. George Becht, Superintendent of Public Instruction, Dr. W. A. Squires, Dr. Charles Peters, Dr. Thomas Young, Dr. W. C. Schaeffer, Jr., Mrs. John Bailey, Rev. John W. Elliott, Dr. J. S. Armentrout, Rev. Homer C. Renton, Mrs. H. C. Renton, and others, surely leaders in their work and those who are capable of directing leaders.

The Pennsylvania State Sabbath School Association is certainly to be commended on the intensive work she has been doing throughout the State, especially during the last couple years, and this Leaders' Conference is the first one of its kind ever held.

It is here that the real leaders from every County in the State can gather for three days and discuss every phase of the work before them, and the program this year is that of Community Training Schools on May 1st, at which those from our County who are Community Training School Directors or members of local Boards of Directors or persons contemplating or interested in starting Community Schools should attend.

Then on May 2nd Church Vacation Schools will be discussed and at this session especially should be a large delegation, for nothing in recent years has been so favorably received or has done so much good as the Church Vacation School. Nearly every community now looks forward to this as an annual affair and special attention is given to this at this Leaders' Conference of its second day.

And on the third day, Week Day Religious Instruction will be the topic. The number of these schools throughout Pennsylvania has wonderfully increased under the leadership of Dr. M. Hadwin Fischer during his two years on the State Staff, and is something that every community should know of.

As indicated above, the Country's best leaders will be there to present this program and this new step taken by the State Association of holding such a Conference of Leaders throughout the State is certainly to be commended.

OVER 300,000 DOGS LICENSED

Harrisburg, Pa., April 15.—More than 300,000 dogs have been licensed in the State this year up to March 1, according to a report made to F. P. Willis, secretary of the Pennsylvania Department of Agriculture, by the Bureau of Animal Industry. The records show 65,000 more dogs were licensed during the first two months of 1924 than during the same period last year. Dogs tagged so far this year exceed the total number licensed during 1921, when dog licensure work was under county supervision.

Dr. T. E. Munce, director of the Bureau of Animal Industry, said the figures indicate that owners are paying more attention to licensing their dogs and are not taking the chance of paying fines and costs for failure to observe the dog law. He announced agents of the Bureau are actively enforcing the law in all sections of the State.

HAVE YOU A BAD BACK?
Then the Advice of a Resident of This Locality Will Interest You.

Does your back ache night and day; Hinder work; destroy your rest? Are you tortured with stabbing pains When you stoop, lift or bend? Then likely your kidneys are weak. More troubles may soon appear. Headaches, dizziness, nervousness; Or uric acid and its ills. Help your weakened kidneys with a stimulant diuretic. Use Doan's Pills.

Read this interesting testimony. L. C. Naugle, Wolfburg, Pa., says: "When I stooped, I was taken with a sharp, knife-like pain across my back and made it hard to straighten. Mornings I had a tired feeling and my muscles were lame and stiff. My kidneys were affected and far from natural. After taking Doan's Pills I was cured and have had no trouble since."

The above is not an isolated case. Mr. Naugle is only one of many in this vicinity who have gratefully endorsed Doan's. If your back aches or your kidneys bother you, don't simply ask for a kidney remedy, ask distinctly for DOAN'S PILLS, the same that Mr. Naugle had. 60 cents at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. Y.—Adv.

to advise you—as your lawyer—that there is a law against harboring criminals and that you are laying yourself open to prosecution."

Trentman dubiously felt of his chin. "Being well versed in the law," he said, "I suppose you realize that Mr. Lapelle can recover heavy damages against you in case what you have said to me isn't true."

"Perfectly. Therefore, I repeat to you that I cannot engage in an affair of honor with a thief. I knocked him down this morning, but that was in the heat of righteous anger. For fear that your report to him may lead Mr. Lapelle to construe my refusal to meet him day after tomorrow morning as cowardice on my part, permit me to make this request of you. Please say to him that I shall arm myself with a pistol as soon as I have reached my house, and that I expect to be going about the streets of Lafayette as usual."

"I see," said Trentman, after a moment. "You mean you'll be ready for him in case he hunts you up."

"Exactly."

"By the way, Mr. Gwynne, have you ever fought a duel?"

"No."

"Would it interest you to know that Mr. Lapelle has engaged in several, with disastrous results to his adversaries?"

"I think he has already mentioned something of the kind to me."

"I'd sooner be your friend than your enemy, Mr. Gwynne," said the gambler earnestly. "I am a permanent citizen of this town and I have no quarrel with you. As your friend, I am obliged to inform you that Barry Lapelle is a dead shot and as quick as lightning with a pistol. I hope you will take this in the same spirit that it is given."

"I thank you, sir," said Kenneth, courteously. "By the way, do you happen to have a pistol with you at present, Mr. Trentman?"

The other looked at him keenly for a few seconds before answering. "I have, I seldom go without one."

"If you will do me the kindness to walk with me up to the woods beyond the lake and will grant me the loan of your weapon for half a minute, I think I may be able to demonstrate to you that Mr. Lapelle is not the only dead shot in the world. I was brought up with a pistol in my hand, so to speak. Have you ever tried to shoot a ground squirrel at twenty paces? You have to be pretty quick to do that, you know."

Trentman shook his head. "There's a lot of difference between shooting a ground squirrel and blazing away at a man who is blazing at you at the same time. I'll take your word for the ground squirrel business, Mr. Gwynne, and bid you good day."

"My regrets to your principal and my apologies to you, Mr. Trentman," said Kenneth, lifting his hat.

The gambler raised his own hat. A close observer would have noticed a troubled, anxious gleam in his eye as he turned to retrace his steps in the direction of the square. It was his custom to saunter slowly when traversing the streets of the town, as one who produces his own importance and enjoys it leisurely. He never hurried. He loitered rather more gracefully when walking than when standing still. But now he strode along briskly—in fact, with such lively decision that for once in his life he appeared actually to be going somewhere. As he rounded the corner and came in sight of the jail, he directed a fixed, consuming glare upon the barred windows; a quite noticeable scowl settled upon his ordinarily unruffled brow—the scowl of one searching intently, even apprehensively.

He was troubled. His composure was sadly disturbed. Kenneth Gwynne had given him something to think about—and the more he thought about it the faster he walked. He was perceiving quite freely and he was a little short of breath when he flung open the door and entered his "den of iniquity" down by the river. He took in at a glance the three men seated at a table in a corner of the somewhat commodious "cellroom." One of them was dealing "cold hands" to his companions. A fourth man, his dealer, was leaning against the window frame, gazing pensively down upon the slow-moving river. Two of the men at the table were newcomers in town. They had come up on the Revere and they had already established themselves in his estimation as "skeletons"; that is, they had been picked pretty clean by "buzzards" in other climes before gravitating to his "boneyard." He considered himself a good judge of men, and he did not like the looks of this ill-favored pair. He had made up his mind that he did not want them hanging around the "shanty"; men of that stripe were just the sort to give the place a bad name. One of them had recalled himself to Barry Lapelle the night before, and he used to

for a trader down south or somewhere.

Without the ceremony of a knock on the door, Mr. Trentman entered a room at the end of the shanty, and there he found Lapelle reclining on a cot. Two narrow slits in a puffed expanse of purple grading off to a greenish yellow indicated the position of Barry's eyes. The once resplendent dandy was now a sorry sight.

"Say," began Trentman, after he had closed the door, "I want to know just how things stand with you and Martin Hawk. No beating about the bush, Barry. I want the truth and nothing else."

Barry raised himself on one elbow and peered at his host. "What are you driving at, Jack?" he demanded, throatily.

"Are you mixed up with him in this stock-running business?"

"Well, that's a h—l of a question to ask me."

"It's easy to answer. Are you?"

"Certainly not—and I ought to put a bullet through you for asking such an insulting question."

"He's in jail, charged with stealing sheep and calves, and he's started to talk. Now, look here, Lapelle, I'm your friend, but if you are mixed up in this business the sooner you get out of here the better it will suit me. Wait a minute! I've got more to say. I know you're planning to go down on the boat tomorrow, but I don't believe it's soon enough. I've seen Gwynne. He says in plain English that he won't fight a duel with a horse thief. He must have some reason for saying that. He has been employed as Moll Hawk's lawyer. She's probably been talking, too. I've been thinking pretty hard the last ten minutes or so, and I'm beginning to understand why you wanted me to arrange the duel for day after tomorrow when you knew you were leaving town on the Revere in the morning. You were trying to throw Gwynne off the track. I thought at first it was because you were afraid to fight him, but now I see things differently. I'll be obliged to you if you'll come out and tell me

what's in the air. I'm a square man and I like to know whether I'm dealing with square men or not."

Lapelle sat up suddenly on the edge of the bed. Somehow, it seemed to Trentman, the greenish yellow had spread lightly over the rest of his face. "You say Martin's in jail for stealing?"

"Yep," he asked, gripping the corn-husk bedtick with tense, nervous fingers, "and not in connection with the killing of Suggs?"

"Yep. And I sort of guess you'll be with him before you're much older, if Gwynne knows what he's—"

"I've got to get out of this town tonight, Jack," cried the younger man, starting to his feet. "Understand, I'm not saying I am mixed up in any way with Hawk and his crowd, but—I've got important business in Attica early

tomorrow morning. That's all you can get me to say. I'll sneak up the back road to the tavern and pack my saddle-bags this afternoon, and I'll leave money with you to settle with Johnson. I may have to ask you to fetch me, before dawn here—"

"Just a minute," broke in Trentman, who had been regarding him with hard, calculating eyes. "If it's as big as all this, I guess you'd better not wait till tonight. It may be too late, and besides, I don't want the sheriff coming down here and jerking you out of my place. You don't need to tell me anything more about your relations with Hawk. I'm no fool, Barry. I know now that you are mixed up in this stock-stealing business

and that you are a law-abiding citizen. I'll help you to get away. Now, here's what I'll do. I'll send up and get your horse and have him down here inside of fifteen minutes. There's so darned much excitement up in town about this murder that nobody's going to notice you for the time being. And besides a lot of farmers from over west are coming in, scared half to death about Black Hawk's Indians. They'll be out looking for you before long, your lordship, and it won't be for the purpose of inviting you to have a drink. They'll probably bring a rail along with 'em, so's you'll at least have the consolation of riding up to the calaboose. You'll—"

"Oh, for God's sake!" grated Barry, furiously. "Don't try to be comical, Trentman. This is no time to joke—or preach either. Give me a swig of—"

"None! No whisky, my friend," said the gambler firmly. "Whisky always puts false courage into a man, and I don't want you to be doing anything foolish. I'll have your mare Fanny down here in fifteen minutes. Saddled and everything, and you will hop on her and ride up the street."

"The devil take the hind part of you!" Trentman said, just as if you're out for an hour's canter for your health. You will not have any saddlebags or traps. You'll ride light, my friend. That will throw 'em off the track. But what I want you to do as soon as you get out the other side of the tanyard is to turn in your saddle and wave a last farewell to the Star city. You might throw a kiss at it, too, while you're about it. Because you've got a long journey ahead of you and you're not coming back—that is, unless they overtake you. There's some pretty fast horses in this town, as you may happen to remember. So I'd advise you to get a good long start—and keep it."

If Lapelle heard all of this he gave no sign, for he had sidled over to the little window and was peering obliquely through the trees toward the road that led from the "shanty" toward the town. Suddenly he turned upon the gambler, a savage oath on his lips.

"You bet I'll come back! And when I do, I'll give this town something to talk about. I'll make tracks now. It's the only thing to do. But I'm not licked—not by a long shot, Jack Trentman. I'll be back inside of—"

"I'll make you a present of a couple of pistols a fellow left with me for a debt a month or so ago. You may need 'em," said Trentman blandly. "Better get ready to start. I'll have the horse here in no time."

"You're d—d cold-blooded," growled Barry, pettishly.

"Yep," agreed the other. "But I'm kind-hearted."

He went out, slamming the door behind him. Twenty minutes later, Barry emerged from the "shanty" and mounted his sleek, restless thoroughbred. Having recovered, for purposes of deception, his lordly, cock-o-the-walk attitude toward the world, he rode off jauntily in the direction of the town, according to Trentman the scant courtesy of a careless wave of the hand at parting. He had counted his money, examined the borrowed pistols, and at the last moment had hurriedly dashed off a brief letter to Kenneth Gwynne, to be posted the following day by the avid though obliging Mr. Trentman.

Stiffing his rancor and coercing his vanity at the same time, he cantered boldly past the tavern, bitterly aware of the protracted look of amazement that interrupted the conversation of some of the most influential citizens of the place as at least a score of eyes fell upon his battered visage. Pride and rage got the better of him. He whirled Fanny about with a savage jerk and rode back to the group.

"Take a good look, gentlemen," he snapped out, his eyes gleaming for all the world like two thin little slivers of red-hot iron. "The coward who hit me before I had a chance to defend myself has just denied me the satisfaction of a duel. I sent him a challenge to fight it out with pistols day after tomorrow morning. He is afraid to meet me. The challenge still stands. If you should see Mr. Gwynne, gentlemen, between now and Friday morning, do me the favor to say that I will be the happiest man on earth if he can muster up sufficient courage to change his mind. Good-day, gentlemen."

With this vainglorious though vicious challenge to an absent enemy, he touched the gad to Fanny's flank and rode away, his head erect, his back as stiff as a ramrod, leaving behind him a staring group whose astonishment did not give way to levity until he was nearing the corner of the square. He cursed softly under his breath at the sound of the first guffaw; he subsided with difficulty a wild, reckless impulse to turn in the saddle and send a shot or two at them. But this was no time for folly, no time to lose his head.

Out of the corner of his eye he took in the jail and the group of citizens on the courthouse steps. Something seemed to tell him that these men were saying, "There he goes—stop him! He's getting away!" They were

man's head going on for months. It don't take a very smart brain to grasp the situation. You've probably been making a pretty good thing out of moving this stuff down the river on your boats, and— Now, don't get up on your ear, my friend. No use trying to bamboozle me. You're scared stiff—and that's enough for me. And you've got a right to be. This will put an end to your company's boats coming up here for traffic—it will kill your dealer's a doornail so far as business is concerned. So you'd better get out at once. I never liked you very much anyhow and now I've got no use for you at all. Just to save my skin and my own reputation as a law-abiding citizen, I'll help you to get away. Now, here's what I'll do. looking at him; of that he was subtly conscious, although he managed to keep his eyes set straight ahead. Only the most determined effort of the will kept him from suddenly putting spur to the mare. Afterwards he complimented himself on his remarkable self-control, and laughed as he likened his present alarm to that of a boy passing a graveyard at night. Nevertheless, he was now filled with an acute, very real sense of anxiety and apprehension; every nerve was on edge.

It was all very well for Jack Trentman to say that this was the safest, most sensible way to go about it, but had Jack ever been through it himself? At any moment Martin Hawk might catch a glimpse of him through the barred window of the jail and let out a shout of warning; at any moment the sheriff himself might dash out of the courthouse with a warrant in his hand—and then what? He had a chill, uneasy feeling that they would be piling out after him before he could reach the cover of the friendly thickets at the lower end of the street.

A pressing weight seemed to slide off his shoulders and neck as Fanny swung smartly around the bend into the narrow wagon-road that stretched its aimless way through the scrubby bottom-lands and over the ridge to the open sweep of the plains beyond. Presently he urged the mare to a rhythmic lope, and all the while his ears were alert for the thud of galloping horses behind. It was not until he reached the tableland to the south that he drove the rowels into the flanks of the swift four-year-old and leaned forward in the saddle to meet the rush of the wind. Full well he knew that given the start of an hour no horse in the county could catch his darling Fanny!

And so it was that Barry Lapelle rode out of the town of Lafayette, never to return again.

CHAPTER XX

In an Upstairs Room.

It was characteristic of Rachel Carter that she should draw the window curtains aside in Viola's bedroom, allowing the pitiless light of day to fall upon her face as she seated herself to make confession. She had come to the hour when nothing was to be hidden from her daughter, least of all the cheek that was to be smitten.

The girl sat on the edge of the bed, her elbow on the footboard, her cheek resting upon her hand. Not once did she take her eyes from the gray, emotionless face of the woman who sat in the light.

In the course of time, Rachel Carter came to the end of her story. She had made no attempt to justify herself, had uttered no word of regret, no signal of repentance, no plea for forgiveness. The cold, unflinching truth, without a single mitigating alloy in the shape of sentiment, had issued from her tired but unconquered soul. She went through to the end without being interrupted by the girl, whose silence was eloquent of a strength and courage unsurpassed even by this

woman from whom she had, after all, inherited both. She did not flinch, she did not cringe as the twenty-year-old truth was laid bare before her. She was made of the same staunch fiber as her mother, she possessed the indomitable spirit that stiffens and remains unyielding in the face of calamity.

"Now you know everything," said Rachel Carter, wearily. "I have tried to keep it from you. But the truth will out. It is God's law. I would have spared you if I could. You are of my flesh and blood, you are a part of me. There has never been an instant in all these hard, trying years when I have not loved and cherished you as the gift that no woman, honest or dishonest, can despise. You will know what that means when you have a child of your own, and you will never know it until that has come to pass. You may cast me out of your heart, Viola, but you cannot tear yourself out of mine. So I have spoken. There is no more."

She turned her head to look out of the window. Viola did not move. Presently the older woman spoke again.

"Your name is Minda Carter. You will be twenty-two years old next September. You have no right to the

Economies

In order to cut the high costs of new telephone equipment we have introduced many labor-saving devices. In every department of our business there are new machines, new practices, improved methods—all introduced to keep telephone rates down.

Were it not for the improvements in the telephone art in the past few years we would have been forced to come to you—the people of Pennsylvania—for increased rates a year or two ago.

We have now reached the point

where further economies will impair the service itself—a thing which you would not sanction, and which we could not allow.

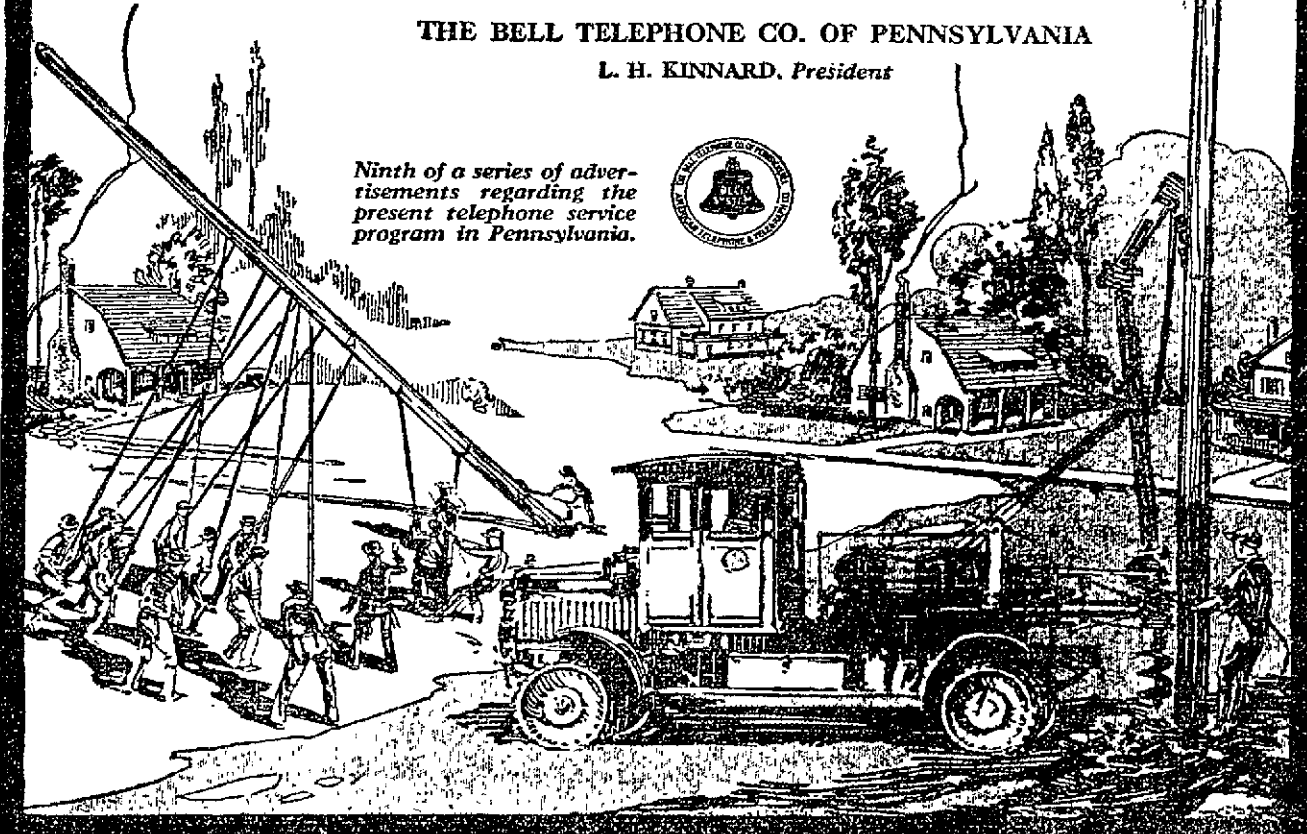

When we reach this point—where every possible economy has been introduced in our business, and in spite of this our revenues are inadequate to meet the needs of a sound business, there is only one thing left for us—we must come to you and state the facts.

For you have the same interest in the service that we have.

A strong, well-conducted, efficient telephone system is an asset to the community. We ask only for rates which will enable this company to continue as an asset to the business and social welfare of the State.

STRICTER ALIEN LAW HAS CHANGE

MEASURE AIMED AT SOUTHERN EUROPEANS LIKELY TO BE PASSED BY CONGRESS.

By EDWARD B. CLARK

Washington.—The senate is discussing immigration. The house has been discussing it for some time. It looks today as if a restrictive measure will receive the sanction of congress and the approval of the President. There is some opposition from both Democrats and Republicans in the two houses, but it probably will be overcome. Most of the objection to further restriction of immigration comes from men who represent districts containing many foreign-born constituents.

The present immigration law, which expires by limitation on June 30 of this year, is a really restrictive measure, but the proposal is to make the new one more so. It may be that not only will the percentage of admissions be cut but that the basis will be made on an early year census instead of that of 1910, a change which will keep out large numbers of southern Europeans while admitting considerable numbers of northern Europeans.

It just happens that at hand at this moment there are some facts concerning Italy, and it is for this reason that this country is chosen to point up its side of the case. It has been said that the present law is restrictive. So it is, and this is shown by the simple statement that the present Italian quota is only 42,000 persons a year.

Italy's Case an Example.

It is understood that there are 600,000 Italians already registered on the other side of the water as applicants for passports as immigrants to the United States. If either the house bill or the senate bill shall become a law this year, the present Italian quota of 42,000 persons will be reduced more than half, and the same general proportionate reduction will be made for other southern and eastern European countries.

The officials of the Federation of Labor and the American Legion recently joined in an appeal for further restriction of immigration. Senator Reed of Pennsylvania, who is urging the passage of a selective and a restrictive bill, is a veteran of the A. E. F. and a member of the American Legion, but his bill is too lenient to meet the organization's demands.

In 1890 the comparatively recently arrived immigrants from northern Europe outnumbered those from southern and eastern Europe very largely, while recently the southern and eastern Europeans were here considerably in excess of those who had come from western and northern Europe. It easily can be seen therefore why those senators and representatives who prefer the northern and western European immigrants to the southern and eastern, desire that a census of years ago rather than a recent census shall be taken as a basis for fixing the quotas of immigrants to be admitted.

While the new law, if it follows the lines of suggested legislation, will keep many Italians out of this country who desire to come here, it can be said on the strength of statements made in congress that the Italian government is trying to keep up the character of its immigrants. It is said that some other European countries are taking exactly the opposite course, trying their level best to get rid of their undesirables and to keep at home their desirables. Knowledge of this in itself is one reason for the apparent strength of the desire of congress to put the bars up higher than they are today.

Sources of Our Population.

A chart has been shown in the senate which shows accurately the composition of the population of the United States in 1920. In explaining the chart Senator Reed said the following concerning the composition of our population:

"Ten per cent of it is of negro origin. Of the whole population of the United States according to the last census it is estimated that including negroes 74 per cent is of northwestern European origin. Excluding the negro the percentage would be about 78 per cent. Of the present population 13 per cent of the whole number, including negroes, came from southern and eastern Europe, that is, from Russia, Poland, the Balkan countries, Turkey in Europe, Italy and Spain.

"Thirteen per cent of our whole 105,000,000 had a national origin in southern and eastern Europe, and 3 per cent of the remainder have an origin that is either Asiatic or white African, or from some other source."

Before immigration legislation finally is passed there will be an immense amount of discussion of it in both the house and senate. It is considered a delicate subject because apparently the official lives of a good many members of congress depend upon the way they cast their votes in this matter.

Hines Tells of Aid to Veterans.

In an address just made by Gen. Frank T. Hines, director of the veterans' bureau, there is given what Washington looks upon as probably the first concrete statement of actual present-day facts concerning the number of government veteran beneficiaries.

The number of insurance policies in force, and specific information concerning other matters which are of interest to the veterans' bureau possibly have been hazily.

In the veterans' bureau possibly have been hazily.

Today the bureau is carrying for the ex-service men 342,146 converted insurance policies valued at \$1,320,730.445.40, or an average of \$3,853 per policy, and 194,025 term insurance policies valued at \$1,530,729,344, an average of \$7,850 for each policy.

This represents a great reduction from the amount of insurance carried by the government for the men during the war, but the understanding is that today Uncle Sam stands third in the list of life insurance agents in the country, and that former soldiers whose insurance has lapsed constantly are applying for the reinstatement of their policies.

Many Tuberculosis Patients.

The war risk insurance act provides also for the granting of compensation to men who by reason of wounds or disease suffered the loss of earning power of 10 per cent or greater. Among the beneficiaries there are 45,000 suffering from some form of tuberculosis, who either have or are receiving through the bureau hospital treatment or compensation, or both. The tuberculosis patients form one of the great outstanding groups of the disabled.

There are only three cases of men who are receiving benefits for the loss of four of their members. Two of these involve the loss of both hands and eyes. The total number of ex-soldiers now on the compensation rolls in the bureau exclusive of those in vocational training is 235,744, and to these the government is paying sums in various amounts according to the extent of disability.

There are at the present time in the hospitals of the country 18,423 men suffering from various types of diseases or injury. General Hines says it cannot be predicted with any certainty how soon this number materially will decrease. No man who requests hospital treatment need be turned away for lack of facilities. He adds that the whole hospital program of the bureau is being carried out with vigor toward a successful completion.

Coolidge to Summer in Capital. President Coolidge has let it be known through an "authorized spokesman" for the administration that he intends to stay in Washington all summer, come heat, come humidity, or come anything else. It is said the President and his wife found the White House fairly cool and livable last August when they moved in after the death of President Harding, and that the determination is to remain here during the coming heated spell.

Occasionally presidents have second thoughts come to them. If congress shall adjourn there is a sort of belief in Washington that notwithstanding the present-day resolution to remain in the capital during the summer months, the President may elect to go elsewhere for a while. The heat in this town has a driving power that is pretty nearly all-powerful.

President Coolidge is not a golf player, and this fact in itself may induce him to change his mind about staying in Washington during the fiery month of July and the dog days of August. The links of the country clubs offer some relief from the heat, for while they are pretty hot places in themselves, it is declared the golf player, like the race horse, revels in heat.

Even Walking Won't Be Pleasant. The physical recreations of President Coolidge are pretty nearly as few as humming birds in March. He still takes long walks and occasionally he rides horseback. If he intends to stay in Washington through the entire summer it is regarded here as lucky for him that he has the early-rising habits of farm life. There are weeks at a stretch here when walking at any hour much later than sunrise is anything but recreation.

Years ago it was virtually impossible for a presidential family to remain in the White House during the summer months with any chance that the family members would keep their health. However, the malarial mosquito has been overcome through the draining of the Potomac marshes, and so one great objection to summer residence under the roof of the executive mansion has been removed.

To get back to golf again for a moment, it might be said that if President Coolidge would learn the game he could play it on one course in the city where he would be sure of seclusion and of as cool weather as any part of the District of Columbia affords in the more or less good old summertime.

There is a fine nine-hole course on the grounds of the Soldiers' home. It is a private course, open only to those connected with the home in official capacity and to such persons as they may select for the privileges of the links. No caddies are allowed on the course. Every man is his own caddy unless perchance one of the veterans of the regular army living in the home volunteers to act as caddy because of sheer love of watching the game and of following the players.

New Congressional Country Club. There is a new country club in Washington, the Congressional Country club. It was founded by members of congress and other officials of government. It has the most beautiful clubhouse to be found in this section of the country. This will be the club to which the President most naturally will turn for summer afternoons and evening outings.

Country clubs here are as numerous as dandelions in May. Everybody thought that the country club industry was being overdone, but there are membership waiting lists in every one of these out-of-door institutions. This fact in itself is enough to show how desirable a thing it is to get out of the heart of Washington in the months from May 1 to November 1.

Lesson for April 20

ELISHA: TEACHER AND STATESMAN

LESSON TEXT—I Kings 6:15-23. GOLDEN TEXT—"Be not overcome of evil, but overcome evil with Good."—Rom. 12:21.

PRIMARY TOPIC—God Caring for Elisha.

JUNIOR TOPIC—Elisha's Goodness to His Enemies.

INTERMEDIATE AND SENIOR TOPIC—How to Turn Enemies Into Friends.

YOUNG PEOPLE AND ADULT TOPIC—What Elisha Meant to His Nation.

1. Elisha, Elijah's Successor (I Kings 19:15-21; II Kings 2:15.)

1. His Anointing (I Kings 19:15-21). In obedience to the Lord's command, Elijah went forth from his hiding place in Horeb to anoint Elisha as prophet. While Elisha was plowing with oxen Elijah passed by and cast his mantle upon him.

2. His Training (II Kings 2:2-8). Elisha came into the life of Elijah in the field, where he called him forth from the plow, and there was thenceforth real friendship between them, such that Elisha clung to his master to the very last, in spite of three urgent requests for him to remain behind.

3. Elisha's Double Portion (II Kings 2:12-16).

(1) Elisha's cry (v. 12). "The chariot of Israel, and the horsemen thereof." This implies that Elijah was the true national defense.

(2) Elisha takes his place (v. 13). The taking of Elijah's mantle indicates his assumption of his place as a prophet.

(3) Elijah's spirit upon Elisha (vv. 14, 15). This is proven by the use of his power to divide the Jordan. Also it is proven by the testimony of the sons of the prophets.

II. Elisha's Ministry (II Kings 3:10).

1. The Trenches Filled With Water (Chap. 3:16-20). Jehoram, in alliance with the king of Judah, went against the Moabites. His army was in great straits for lack of water. When they appealed to Elisha, he bade them show their faith by digging trenches in desert soil. The Lord sent water to fill the trenches.

2. Increase of the Widow's Oil (Chap. 4:1-7). This woman's husband had died, leaving a debt, and the creditor was about to make bondmen of her two sons. Elisha caused the scant supply of the widow's oil to be so increased that she sold enough to pay the debt.

3. The Shunamite's Son Restored (Chap. 4:8-37). Because of hospitality shown Elisha, he sought to help his hostess by promising that the Lord would give her a child. The joy brought by the fulfillment of the prophet's announcement was short-lived, for while yet but a lad he was taken away by death. In her sorrow she went to Elisha and he restored the child's life.

4. Heals Deadly Pottage (Chap. 4:38-41). In time of famine they made a vegetable soup from whatever growing plants they could find. By mistake a poisonous plant had been gathered. By putting meal into the pot, the soup was made healthful.

5. Fed One Hundred Men (Chap. 4:42-44). To the astonishment of his attendant, he fed one hundred men with twenty barley cakes and a sack of uncooked grain.

6. He Healed Naaman, the Leper (Chap. 5:1-19). At the instance of a captive Jewish maid, Naaman, the great Syrian general, was brought into touch with Elisha. Without even coming to see Naaman Elisha, through his servant, bade him dip seven times in the Jordan. He obeyed and was instantly healed.

7. Recovers the Lost Axe (Chap. 6:1-7). While the sons of the prophets were cutting timber to enlarge their quarters, the head of a borrowed axe flew from the handle and was lost in the muddy waters. When shown the place Elisha cast a stick into the water and the axe floated to the surface.

III. Elisha's Heavenly Defenders (II Kings 6:8-23).

This shows the secret of Elisha's power.

1. The Syrian King Sorely Troubled (vv. 8-12). The king directing warfare against Israel. He located camps so as to intercept Israel's army. Through Elisha God made known the enemy's movements (v. 9).

2. The Syrian King Tries to Trap Elisha, but, though surrounded by the Syrian army, a mightier host of heavenly defenders were round about him.

3. The Syrian Army Trapped. Elisha led the Syrian army into Samaria. He ordered that they should be fed and sent back to their land.

He Came to Save Sinners

When a prominent man dies, we are anxious to get his last words and acts. The last act of the Son of God was to save a sinner. That was a part of the glory of His death. He commenced His ministry by saving sinners, and ended it by saving this poor sinner.—D. L. Moody.

Inexcusable

Most people will excuse anything quicker than an apology.—Christian Herald.
